## “Bring The House Down”

### ON TOUR IN 2011

Formed in 2001 by former members of London streetpunk & Hardcore bands Gundog & Knuckledust, Deadline quickly became one of the more successful British punkbands! They quickly secured support slots with Punk heavyweights Rancid, The Damned, The Adicts, Tiger Army and got signed with People Like You in 2003 after playing a London show with The Bones .

In 2010 People Like You were delighted to present Deadline’s return at the top of their game with their 5th full length album "Bring The House Down", certainly their best sounding album to date, 100% produced by the band itself!

"Bring The House Down" still showcases the Deadline you know and love, but with a few surprises. Their new guitar-player persuaded Liz to record abroad and dragged her to his studio in France to make use of the best microphones money could buy. After 5 weeks of hard slog and arguments, and numerous channel crossings, Deadline proudly got to present this album to their faithful fans and newcomers alike and received great reviews and feedback since its release almost a year ago.

Deadline have not been lazy since. They have travelled extensively across Europe, completing two tours in 12 months. They are one of the hardest working bands on the scene right now and they’ll be rocking hard to “Bring The House Down” in your town!

2011 is a time for celebration! Deadline can look back over 10 successful years - five albums, a live DVD, hundreds of shows over 3 continents and a huge fan-base!

Cheers - to the next ten years!
