# Take Offense

UNDER THE SAME SHADOW

Chula Vista, CA based **TAKE OFFENSE** formed in 2005 and came hurtling onto the scene with a sound that is more than the sum of their influences (which they wear on their sleeves). More than mere homage, they are a genuine product of the So-Cal thrash crucible, crafting songs that are ingrained in their regional culture (think SUICIDAL TENDENCIES, NO MERCY and BEOWULF). Add to that the frenzy of DISCHARGE, BLACK FLAG, BAD BRAINS and DRI, and you start to get the idea.

This spring, **TAKE OFFENSE** are following up their debut full-length LP, *Tables Will Turn*, with a 12" EP entitled *Under The Same Shadow*—four new jams to keep the people in the zone! They have been proving themselves for seven years now with their intense live performances and ever-growing musical range. This will be their best one yet.
