

# EASY MONEY

A product of Mesa, Arizona. All members of AZHC with friendships that go back beyond music. Lifestyle choices and environmental pressures molded the style of Easy Money long before any songs were written. When all four members met up, scheming began instantly. Mookie wrote the riffs, Troy wrote the lyrics, Travis played the drums & Taylor took the bass. The chemistry was real. As rabid fans of music with an unmatched hunger, developing a unique heavy hardcore style felt natural. "Starting from a garage in the desert, ending up in Germany, Japan, Mexico, Belgium, the U.K, & everywhere in between will change anyone", Troy says, regarding the mental health of his band. He went on to say "But there's no stopping for Easy Money now." Expect the unexpected as we hear more from Easy Money. Currently signed to BDHW. REC, a Full Length record is slated for 2019.
