

# THE TAKE

*"Hardcore used to be followed by the word punk and that's what we originally wanted to create". What emerged is a refreshing mix of punk, oi, hardcore and rock & roll with melodic yet raspy vocals and a new approach to underground music.*

## ***The Take***

Famed NYHC drummer Will Shepler (formerly of **Agnostic Front**, **Madball**) and **Sick Of It All** bassist Craig Setari (also formerly **Agnostic Front**) had an idea for a hardcore power trio. Will called longtime friend, guitarist/ vocalist Scott Roberts (formerly of **Biohazard**, **The Spudmonsters**, **Bloodclot!**, **Cro-Mags**) who had just left **Biohazard** only weeks before. It was perfect timing for Scott as he wanted to move on and create something new from the ground up with complete creative freedom and passion. Soon after, Scott and Will began working on what would become **The Take's** self titled debut record. Craig was busy with **Sick Of It All's** hectic touring schedule so Scott recruited friend and oi veteran Carlos Congote (**Royal Hounds**, formerly of **45 Adapters**, **Urban Noise**, **Legion 76**) to complete the lineup.

**The Take's** self titled debut LP (engineered, mixed and produced by Scott Roberts) is scheduled for worldwide release on German label **Demons Run Amok** in 2019.
