

ARROW MINDS is a modern hardcore/punk band from Rostock, Germany.

Their power- and meaningful songs represent everything the genre should offer in 2022. Fast positively aggressive tunes leading to catchy hooks, with lyrics that do not try to be empty paroles, but rather raise necessary questions about today's absurd ideals, ideas and issues.

The band formed in 2016. The same year they released the digital EP "Big Kahuna Jams". In 2018, ARROW MINDS released their first album "Alcatraz Affairs" – produced by Andreas Hofmann – via White Russian Records.

Their new record "Worrier" – produced by Christoph Wiczorek (Annisokay) – comes out March 25, 2022 via Dead Serious Recordings. It features Tom Brümmer (The Oklahoma Kid) on "Misery Loves Company".

ARROW MINDS bring a high-energy live-set wherever they are put on the bill. In their first couple of years, the band has already shared the stage with Wisdom In Chains, Terror, All For Nothing, Evergreen Terrace and many more.

After a short run of shows with the latter, the band teamed up with MAD TOURBOOKING to bring them to many more venues in the future. Oh, let's just fast forward to that post-pandemic world, 'cause this band is hungry for more.
