

WOLVHAMMER

With the current rapid rise in quality USBM, Wolvhammer races to the forefront with their upcoming fourth album which sees them merging the black metal tendencies of Enslaved with the mid-tempo sludge of Celtic Frost. Eschewing any frills, the band goes straight for the throat.

No experimental bullshit, just the sound of rotten flesh and slow decay.

Featuring Jeff Wilson (Abigail Williams) and Adam Clemans (Skeletonwitch), Wolvhammer has finally stepped into their own.
